DITON RAISING INTEREST

Attracts its raising a \$25,000,000 crop through the operation of a decay of cotton the year has caused a great revival of interest in cotton crowing in southern Nevada, State Engineer Scripham, who returned from that section a few days ago,

Isuac Sprainte a rancher of Virgin Valley, has an experimental plot of cotton that is very promising so much so in fact, that cotton raising on a farge scale may soon be attempted by other ranchers along the irgin river. The growing of cotton in this

state is not an entirely new undertaking The first prize awarded for stuple cotton at the Centennial exposition in 1876 was for cotton raised in the Stewart ranch near Las Vegas. It is possible that cotton may, before many years; he the leading crop mised in the Virgin river country and other localities in the southern are of the state, where conditions are invorable.

EUILING WELL IS FOUND AT FALLON

Efforts of the Kent Land and Liveseek company to develop an artesian flow of water on the Silverwater rauch had a happy conding when an ortesian flow of water of a tempercure of 175 degrees Pahrenheit, was developed at 287 feet, the steaming water issuing at the mits of thirty gallons per manute. It is the plan of State Senatur C E Kent to build cooling tanks and conduct the water into the cattle feeding corrals at a lukewarm temperature, it being asserted that such a departure will be distinctly beneficial to the stock feed ing enterprise maintained by the company.-Fallon Standard.
